Dear Prospective Parents:

We are very pleased that you are interested in Westland School. Enclosed is information to guide you through the process of learning about Westland and applying for your child.

The admission process is one of mutual discovery – you will be gaining essential information about our school and community, and we will be getting to know you and your child. Throughout this process we want to make sure that you have all the resources you need to make a thoughtful decision when the time comes.

As a start, the material in this packet covers the rich breadth of our program. Our website, [www.westlandschool.org](http://www.westlandschool.org), has a wealth of information about our curriculum, parent involvement, and history. Helpful details about the admission process are included in the enclosed checklist.

An important step is to visit our beautiful, wooded campus to see our program in action. Three open houses with a parent-led tour will be held in the fall. Please check our website after July 1 for open house dates and call the office to RSVP. *Note that both parents must attend an open house before applying to Westland.*

Feel free to call us any time – we're happy to help you. Thank you for your interest and we look forward to meeting you soon!

Sincerely,

The Westland Admission Committee

## Westland School

Dear Prospective Parents,

Welcome to Westland! At its best, the admissions process you are embarking upon can be a time for deep personal reflection. It is a process that invites parents to articulate their family values and personal philosophy on education—and one that offers each parent the opportunity to ask themselves:

“Who is my child?”

“What does it look like when my child is thriving?” and

“What are my true hopes for my child?”

I look forward to supporting you throughout this deeply personal process. Having recently been appointed Head of School by the Board of Trustees, I had my own recent version of a search process! I'm confident you will quickly discover what I did: Westland is a leader in progressive education. Founded in 1949, Westland has been—and is—ahead of its time. It is a school that is learner-centered, emphasizing skills and values like collaboration, critical thinking, creative problem solving, empathy building, equity, and inclusion. Westland equips its students to navigate our rapidly changing and dynamic world.

Westland teachers have an unflagging commitment to each child. By honoring their natural curiosity, the teachers guide students through an integrated, hands-on, thematic curriculum. Learning is active. Students are engaged, motivated, and joyful! They see that their learning is connected to something bigger: community, social justice, and active citizenry—all of which is modeled to them by the surrounding community of adults.

Throughout a student's Westland education, parents serve a vital role—they are essential partners in each child's education. Parent involvement is intentionally woven into life at Westland. As such, this admissions process is a chance for you to imagine yourself as a learner, a leader, and future community member, as well. I sincerely look forward to meeting you, connecting with you, and exploring your questions as you seek out the ideal match for your family.

Warmly,

Melinda A. Tsapatsaris  
Incoming Head of School

## Flexible Tuition

The flexible tuition model has a different approach to tuition reduction. Rather than focusing on a tuition grant or aid, the focus is on a tuition rate that each family can afford. The change in language and practice conveys our fundamental belief that all families have equal value in our community, regardless of the tuition they pay.

The perception of the traditional financial aid model intimates a one-way street – that the recipients are the sole beneficiaries. The flexible tuition model creates a more accurate and inclusive picture, acknowledging that socioeconomic diversity itself brings value to the entire community. In addition, research demonstrates that diversity benefits all students, from improved critical thinking skills and cognition to a more socially responsible worldview.

Our goal over the course of the next several years is to extend flexible tuition to help some of our families whose incomes fall in the middle range. Each year, as we move forward, we expect that we will gain a clearer understanding of the income levels that will be eligible for flexible tuition. After submitting an admission application please contact Carole (cbarber@westlandschool.org) should you have any questions about your eligibility for flexible tuition.

If you would like to apply for flexible tuition, please complete this form and return it with your admission application. We will then send you an email with instructions for submitting a flexible tuition application.
